

Cisco ESA Version 10 First Configuration:

Login to the ESA using the default username/password of **admin/ironport**.

✓ EDG ✓ ESA x

AsyncOS ironport.example.com (cuau0)

```
login: admin
Password:
Last login: Wed Nov 18 16:39:55 on cuau0
AsyncOS 10.0.1 for Cisco C000V build 087
```

Type **interfaceconfig** command to start configuration, Type Edit than 1 and type Management IP address, subnetmask and hostname.

✓ EDG ✓ ESA x

Please run "systemsetup" or "sethostname" then "commit" before sending mail.
ironport.example.com> **interfaceconfig**

Currently configured interfaces:

1. Management (192.168.42.42/24 on Management: ironport.example.com)

Choose the operation you want to perform:

- NEW - Create a new interface.
- EDIT - Modify an interface.
- GROUPS - Define interface groups.
- DELETE - Remove an interface.

[>] **edit**

Enter the number of the interface you wish to edit.

[>] **1**

IP interface name (Ex: "InternalNet"):
[Management]>

Would you like to configure an IPv4 address for this interface (y/n)? [Y]>

IPv4 Address (Ex: 192.168.1.2):
[192.168.42.42]> **192.168.1.100**

Netmask (Ex: "24", "255.255.255.0" or "0xffffffff"):
[255.255.255.0]>

Would you like to configure an IPv6 address for this interface (y/n)? [N]>

Ethernet interface:

1. Data 1
 2. Data 2
 3. Management
- [3]>

Hostname:
[ironport.example.com]> **esa.abc.com**

Do you want to enable SSH on this interface? [Y]>

Which port do you want to use for SSH?
[22]> █

FTP, Cluster, HTTP, HTTPS, Spam, API etc configuration last save the configuration.

```
Do you want to enable FTP on this interface? [N]>
Do you want to enable Cluster Communication Service on this interface? [N]>
Do you want to enable HTTP on this interface? [Y]>
Which port do you want to use for HTTP?
[80]>
Do you want to enable HTTPS on this interface? [Y]>
Which port do you want to use for HTTPS?
[443]>
Do you want to enable Spam Quarantine HTTP on this interface? [N]>
Do you want to enable Spam Quarantine HTTPS on this interface? [N]>
Do you want to enable AsyncOS API (Monitoring) HTTP on this interface? [N]>
Do you want to enable AsyncOS API (Monitoring) HTTPS on this interface? [N]>
The "Demo" certificate is currently configured. You may use "Demo", but this
will not be secure. To assure privacy, run "certconfig" first.
Both HTTP and HTTPS are enabled for this interface, should HTTP requests
redirect to the secure service? [Y]>

Currently configured interfaces:
1. Management (192.168.1.100/24 on Management: esa.abc.com)

Choose the operation you want to perform:
- NEW - Create a new interface.
- EDIT - Modify an interface.
- GROUPS - Define interface groups.
- DELETE - Remove an interface.
[]>

Please run "systemsetup" or "sethostname" then "commit" before sending mail.
ironport.example.com> saveconfig
```

Type **commit** CLI command to save the changes permanent .

```
ironport.example.com> commit

Please enter some comments describing your changes:
[]>

Do you want to save the current configuration for rollback? [Y]>

Changes committed: Wed Nov 25 18:09:15 2020 GMT
