

BOYD (Bring Your Own Device):

- o Majority of new network devices such as Mobile Phone etc have no wired port .
- o Users will change devices (Phone, iPad, Laptop) more frequently than in the past.
- o Term states is about bringing in & connecting personal devices to managed network.
- o Mobile devices like mobile have become an extension of our Personality and Work .
- o Guest / Contractor access and accountability has become a mandatory business need.
- o Guest, Visitors and Contractors users must be isolated and accounted for separately.
- o The wireless network must be secure, protect and as predictable as the wired network.
- o Organizations often want their employee, users to use their personal devices for work.
- o Using their personal devices for work in company helps improve productivity & flexibility.
- o Method used to allow employees to “onboard” their personal or company issued devices.
- o Supports devices Android, Apple IOS, Google Chromebook, Macintosh and Window etc.
- o Basically, increases security & is often used to allow limited access to internal resources.
- o Can also be used to increase security for non-domain joined devices such as Macintosh.
- o Set up BYOD to manage & enforce policies that identify, authenticate & authorize devices.
- o Connect me anytime, anywhere with mobile networks employees can work from anywhere.

BYOD Welcome

Welcome to the BYOD portal.

Access to this network requires your device to be configured for enhanced security. Click **Start** to provide device information before components are installed on your device.

Please accept the policy: You are responsible for maintaining the confidentiality of the password and all activities that occur under your username and password. Cisco Systems offers the Service for activities such as the active use of e-mail, instant messaging, browsing the World Wide Web and accessing corporate intranets. High volume data transfers, especially sustained high volume data transfers, are not permitted. Hosting a web server or any other server by use of our Service is prohibited. Trying to access someone else's account, sending unsolicited bulk e-mail, collection of other people's personal data without their knowledge and interference with other network users are all prohibited. Cisco Systems reserves the right to suspend the Service if Cisco Systems reasonably believes that your use of the Service is unreasonably excessive or you are using the Service for criminal or illegal activities. You do not have the right to resell this Service to a third party. Cisco Systems reserves the right to revise, amend or modify these Terms & Conditions, our other policies and agreements, and aspects of the Service itself. Notice of any revision, amendment, or modification will be posted on Cisco System's website and will be effective as to existing users 30 days after posting.
